## Raabe & Mauger

115 - 117 NORTH FIRST ST.

### PERSONALS

Allen J. Pipen of San Pedro is visitor in Albuquerque today.

Mrs. K. D. McGaffey of Roswell arrived in Albuquerque last night and is a guest at the Alvarado Hotel.

A. H. Rockfellow of Roswell is in the city today.

The Young People's Christian Endeavor society of the Congregational church will hold a regular business meeting and social this evening at the home of Miss Ethel McCluskey, 107 North Fifth street. All members are requested to attend.

It is best to have your jewelry repairing and engraving done properly. There is an expert in Roswell's jewelry department who knows how and will do it right.

Judge and Mrs. Edward A. Mann are entertaining the former's mother, whose home is in Phillipsburg, Kansas.

Wednesday the judge's mother celebrated her eightieth birthday. The occasion was not formally observed.

### HOME OF THAT MINT JULEP IS BECOMING TEETOTALLY DRY

W. L. Phillips, of Washington, D. C., grand secretary of the Sigma Phi Epsilon fraternity, is in the city as the guest of Attorney George C. Taylor. He and Mr. Taylor are good friends. Mr. Phillips is visiting the various chapters of the Sigma Phi Epsilon fraternity. He is on his way from Berkeley, Calif., to Lawrence, Kan.

Mr. Phillips, who is a Virginian, says that his home state is passing rapidly under the influence of the prohibition movement. He said he believed Virginia would be dry with-

### BANKRUPTCY HEARING BEFORE MR. WILSON

There will be a meeting of the creditors of Jerome Merker before Referees in Bankruptcy John W. Wilson, at the latter's office tomorrow afternoon, at which time a trustee will be appointed. Merker was declared a bankrupt by Federal Judge W. H. Pope on April 29. Mr. Wilson is the referee in bankruptcy for the federal court in Bernallito, Sandoval, Valencia and McKinley counties.

### Arab Patrol A. O. N. M. S.

All members are requested to meet at the 6:30 a. m. train tomorrow to receive San Diego Shriners.

J. BORODAILE,  
Captain.

## National Highways

The people of this country are building a National Highway as a lasting monument to a great man.

Through fertile fields, thriving cities, across rivers and over mountains, the Lincoln Highway will extend from the Atlantic to the Pacific.

San Francisco will be joined with New York, and the thousand cities and towns along the way will be benefited.

Another National Highway—the Telephone Way—will be opened to the public before the Lincoln way is ready for travel.

From New York to San Francisco the big copper wires of the Bell System extend in an unbroken line—the broad highway of universal service.

This Highway, too, is a lasting monument—to the energy of private enterprise.

To that spirit of service that has made the Bell System one of the largest and most useful corporations in the country. In your telephone company's territory alone—the seven mountain states—there are 80,000 miles of long distance highways open for your messages every day.

## The Mountain States Telephone and Telegraph Company

"The Corporation Different"

## ACROSS THE CONTINENT FROM NEW YORK TO SAN FRANCISCO

THERE ARE INVESTORS OWNING STOCK IN THE MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY. THE MARKET FOR WHICH IS ALWAYS ACTIVE.

MOUNTAIN STATES STOCK PAYS 7 PER CENT PER ANNUM ON PAR VALUE OF \$100 PER SHARE AND IS A CONSERVATIVE INVESTMENT OF THE HIGHEST GRADE.

MOUNTAIN STATES STOCK MAY BE BOUGHT FROM ONE SHARE UP, AT A PRICE TO YIELD A VERY ATTRACTIVE INCOME.

FULL PARTICULARS WILL BE MAILED ON REQUEST SENT TO 422 GAS & ELECTRIC BUILDING, DENVER, COLORADO.

**BOETTCHER, PORTER & CO.**

in three months.

### CLARKE CARR MUST PAY INDEMNITY BOND OF F. O. CONTRACTOR

Judgment for \$6,431 was granted against Clarke M. Carr by Judge Reynolds in the district court yesterday afternoon. The judgment was granted to Frank Hashbrook, insurance commissioner, of New York, who proceeded for the benefit of the Empire State Surety company. Clarke Carr signed an indemnifying bond with A. W. Anson, contractor, on the post office building. Anson failed while executing the contract.

The property of J. M. Gooch, grocer, was sold for \$1,212, reported James C. Skinner, Gooch's assignee, yesterday in the district court. The court allowed fees totaling \$216, and the balance will be distributed to the Gooch creditors on a 16.07 per cent basis.

Under alleged promissory notes, Frank McVee, trustee, and Clarke Carr, tenant, have asked judgment for \$2,600 and the sale of the land in Sandoval county, for which they say they hold a deed of trust against James Earhart, Claude Earhart and James Dugan.

### BANKRUPTCY HEARING BEFORE MR. WILSON

There will be a meeting of the creditors of Jerome Merker before Referees in Bankruptcy John W. Wilson, at the latter's office tomorrow afternoon, at which time a trustee will be appointed. Merker was declared a bankrupt by Federal Judge W. H. Pope on April 29. Mr. Wilson is the referee in bankruptcy for the federal court in Bernallito, Sandoval, Valencia and McKinley counties.

Captain.

## MORE OIL STRIKES REPORTED IN THE PECOS FIELD

Artesia Farmer Strikes Flow While Sinking Well for Water Seven Miles from Artesia.

### PROSPECTING RESUMED IN QUAY COUNTY

Artesia, N. M., April 28.—While boring for an artesian well on the ranch of Ed Lamb, seven miles southeast of Artesia, the drillers struck oil at a depth of 560 feet.

According to Jim Berry, who is in charge of the well outfit for the Dayton Deep Well company, which had the contract for the digging of the well, and who has had much experience in the Beaumont oil fields, there are indications of a strong flow. Just a short time after striking the oil it stood 35 feet in the casing.

As soon as arrangements can be completed extensive pumping tests will be made on the well. If it shows enough strength to be valuable for commercial purposes a company will be organized composed of local men, and machinery installed.

The well is located just one mile east of the Brown well, which is pumping fifty barrels a day. The well is 550 feet deep, or 290 feet deeper than the Lamb well.

### SECOND FLOW STRUCK BY SEVEN RIVERS COMPANY

The second showing of oil to be found in the hole being put down by the Seven Rivers Oil and Gas company was located at about 850 feet, and ran between forty and fifty feet of oil and sand. A former showing, too small to work, was found at 550 feet. J. E. McAdams is confident that this last strike will pay to pump, as the oil and gas comes up through 799 feet of water, and the gas could be lighted on top of the well with a match. The company decided not to work this find at present, but to continue drilling and see what they had further down. The hole is now down about 950 feet, and drilling was commenced again Monday morning. The rig had been temporarily out of commission while waiting for a new cable.

D. C. W. Williams, former president of the First National bank, has purchased twenty-five per cent of the stock of the company and will be actively identified with it in the future.

### ANOTHER STRIKE REPORTED IN OIL CITY FIELD

That an oil strike was made last week at Oil City in the well being put down by Meadows & Clough is the gist of a report received in Artesia.

Just how extensive the strike is the drillers have been unable to determine as no tests have yet made. However, they believe that the flow is strong and are arranging for tests. It is reported that a promotion has been put up to the people here to furnish a hundred dollars for the testing of the well.

### OKLAHOMA MEN TAKING LEASES IN QUAY COUNTY

House, N. M., April 28.—W. W. State and W. J. Morgan of Ranch were in town Monday, on business connected with the development of oil and gas in this section. Mr. State is an experienced oil man, and at the present being interested in a number of paying wells in the Electric and Wilson oil fields of Texas and Oklahoma and expresses himself as very favorably impressed with the prospects of this country. He and Mr. Morgan are busy securing leases and they hope to close one or more big rigs to the shipping of one or more big rigs to this section within the next few months.

### JUDGMENT CREDITOR BUYS IN MINING PROPERTY IN SIERRA

Hillsboro, N. M., April 29.—At the sheriff's sale of the Good Luck Mining property in the Macho last week the property was bid by Phillip G. Simmons, the judgment creditor for \$7,000.

Many ill come from impure blood.

Can't have pure blood with faulty digestion, lax liver and sluggish bowels.

Burdock Root Bitters is recommended for strengthening stomach,

bowels and liver and purifying the blood.

### Justice Mayo on the Influence of Children.

"Children have a great influence upon the entire family, and in many instances are able to bring about reforms that all other agencies might fail of obtaining," says Justice John B. Mayo, the most 'bitterly' of all the children's court jurists, in the May Strand. "This may seem a bit exaggerated, but every man and woman who has worked for any time in this court pins his or her faith to the child. They look to the inspiration of the child for the betterment of the home.

"I know that it seems anomalous that the little ones who should be protected and kept from harm by the parents are really in a reverse position, and that it is the boy or girl in the majority of cases that, in reality, is taking an interest in the uplift of the parents and who are extending a sort of moral supervision over their mother's living."

"In the congested parts of the city there are thousands of homes which are pitiful places in themselves. Add to this a drunken or lazy father and mother or parents of low morals; then what can reasonably be expected of the ill-nourished, poorly-cared-for offspring? In such cases the parents

### MINING

## CHINO EARNED HUGE DIVIDEND DURING PAST TWELVE MONTHS

Hurley, N. M., April 29.—The surplus of the Chino Copper company, after paying interest charges out of its total income, according to the annual report for the year ended December 31, 1913, was \$2,324,054, which was equal to \$3.75 per share on \$60,540 shares, compared with \$2.89 earned on 77,420 shares the year before.

The receipts of the year from copper amounted to \$7,261,419, against \$1,244,261 in 1912, with net operating profits of \$3,190,293, compared with \$2,212,169. The total income was \$2,327,826, against \$2,327,302, with a surplus after the payment of interest charges of \$3,234,034, compared with \$3,176,094. Following the payment of dividends and the making of a reduction for depreciation, there remained a surplus of \$1,162,817, compared with \$2,176,904 for the year before. This added to the previous surplus after making a deduction of \$172,699 for credit, gave a total profit and loss surplus on December 31, 1913, of \$2,743,167, against a total profit and loss surplus of \$2,461,330 on December 31, 1912.

The amount of copper produced during the year totaled 50,511,661 pounds, as compared with 27,746,088 pounds in 1912. According to C. M. MacNeill, president of the company, an increase of 30 per cent in the output of copper over the production of the last year can be expected with the present perfected and completed plant.

Total receipts amounted to \$7,889,721 against \$5,475,565, with net operating profits of \$2,479,218, as compared with \$1,814,206. The total income was \$2,874,517 against \$2,116,961, and the net profit against \$2,675,193, as compared with \$1,926,262. The surplus for the year was \$580,222 against \$1,929,292, making a total profit and loss surplus of \$2,758,126, against \$2,227,992 on December 31, 1912.

### CHINO CONTINUES IMPROVING PLANT

The Chino company has received and is placing two of the large new hoisters which are to be added to the new power house unit. With these hoisters and motors which are to be installed and the extension of the switch board finished, it will complete the new unit which has been planned for several months. This installation has been made necessary by the addition of a large crusher at the company's mine at Santa Rita. With the crusher in operation more ore can be handled through the crushers here as the present mill can care for, and it is rumored that owing to this condition, two more units will be added to the mill. If the new six foot well, which is to be put down at the company's pumping station at Apache Tafo, flows as much more water as the three foot well recently sunk there is promised no scarcity of water. The latter well is flowing 700 gallons more water per minute than previously to digging it to bedrock some 75 feet.

### ANOTHER IMPORTANT MINING DEAL CLOSED BY GRANT COUNTY MEN

Silver City, N. M., April 29.—Dennis Clifford last week sold his cliff group of seven claims located four miles south of Stein's, this country to Thomas Lester of Lordsburg for 16,000, payable in installments beginning in July. The property has been worked by Mr. Clifford for some time as a lead-silver proposition, but recently while doing assessment work Mr. Clifford discovered some quartz veins which were supposed at first to be barren but showed an assay of samples to carry gold values as high as \$3,425 per ton in the pyrite streaks. The vein is one foot wide. This is the first discovery of gold south of Stein's Pass, and the veins are believed to be the continuation of those worked farther north in the old Beck and Vulture mines.

One carload of copper slimes shipped recently by the S. Mining company of Lordsburg netted \$4,500 at the smelter.

In the operation of driving the tunnel of the Burro Mountain Copper company, which connects the Tyrone and Leopold properties and through which the ore from the Leopold mine will be taken out, some promising new mineral territory has been encountered. A low grade sulphide ore body was cut at a distance of about 1200 feet from the portal, and this has been opened with a drift of cross-cut which show that it is of considerable importance. So far a total of some 50,000 tons of additional ore averaging 2.5 per cent copper has been shown to exist, and further development will probably show considerable more.

are dragging the children to visit.

From such families the majority of the children of this court are brought.

There are many changes under which they come—truculence, incorrigibility, dishonesty, wickedness and improper guardianship. I believe, thoroughly, that many of these charges would not be brought against the little ones if the guardianship were proper. The fact or the matter is that improper guardianship is largely to blame for a majority of the cases that come before the court.

"Much of the trouble develops with home environment. The parents become angered with their children. It does not occur to them that at the bottom the blame rests on them. They have brought them into the world and then failed or their duty. That they should be punished with the child, if punishment is necessary, does not enter their heads. They had not been educated to look at the question from that point of view.

"It is the child who, unconsciously, is the cause of the trouble. When the child comes to this court, then begins his or her part in the reformation of the family. And it is truly marvelous to observe the vast improvement in the father and mother of a child on probation."

lined with lime, and has been used for generations to flush clogged kidneys and stimulate them to normal activity, also to neutralize the acids in the urine and to lessen irritation of the bladder.

Jad Salts cannot injure anyone make a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

**MORRIS HEARING IN GALLUP TOMORROW**  
District Attorney Marshall E. Vail and his clerk, Claude Britton, will go to Gallup tonight to sit in board to review of the preliminary hearing of W. H. Morris, the banker who is accused of assaulting W. L. Bishop, superintendent of the Gallup schools.
